Learn the G Lizard

Learn the D Major Scale

Play along with Kim on the DVD!

When you have finished Lesson 5 on the DVD, then spend some time practicing what you learned on your own. Make sure to go slowly, and play correctly. Slow and correct is the way to success! Some exercises will need to be repeated many, MANY times at a very slow tempo. This is normal! You may need to practice some exercises over 100 times before it feels easy.
